... in return, we pledge our support of your efforts:

Beyond appropriate signage at the event and inclusion in our event booklet, we would be pleased to support our sponsors further by including your information on our website and in related press releases. If you'll permit us to thank you for your support in this manner, please affirm your approval on the first page. In advance, the MLRA, SPIA and the ASYCC, thank you for your contributions. Collective efforts like this have enabled our three organizations to positively impact water quality in our region. Last year we raised over \$25,000 through this tournament!!

Good stewardship of our lakes yields a thriving community for all of us, both environmentally and economically.

Working together we do make a difference!
